# PILOTAGE FEES

## PORT OF NEW YORK & NEW JERSEY SANDY HOOK PILOTS

For vessels inbound or outbound, charges shall be based on “**Pilotage Units**” Pilotage Units as used in this subdivision shall be determined by multiplying the overall length of the vessel by the extreme breadth by the depth to the uppermost continuous deck and dividing the total by ten thousand, as expressed by the following formula:

$$\frac{\text{Overall Length X Extreme Breadth X Depth to the Uppermost Continuous Deck}}{10,000} = \text{Pilotage Units}$$

The following rate table shall be used to calculate pilotage tariffs:

PILOTAGE FEE = BASE TARIFF (COLUMN 2) + PENSION TARIFF (COLUMN 3)

PILOTAGE UNITS	BASE TARIFF (COLUMN 2)	PENSION TARIFF <i>(1/1/24)</i> (COLUMN 3)
0 TO 24.99	\$849.00	<i>\$289.71</i>
25 TO 49.99	\$999.00	<i>\$345.49</i>
50 TO 99.99	\$1,234.00	<i>\$424.17</i>
100 TO 499.99	\$(12.43 X # P.U.)	<i>\$(4.30 X # P.U.)</i>
500 TO 1649.99	\$((#P.U.-500) x 1.67)+6,217	<i>\$(#P.U.-500) x .47)+2,150</i>
1650 AND UP	\$((#P.U.-1650) x 3.97)+8225	<i>\$(#P.U.-1650) x .47)+2,691</i>

- Effective 0001 **January 1, 2024**, after which time quarterly adjustments may be made to Pension Tariff to reflect pension funding requirements. (*Figures in italics, Column 3*)
- Effective **April 1, 2019** a Capital Expense Fund Surcharge of **\$190.00** will be added to the Pilotage Fee.
- Every foreign vessel and every American vessel under register entering or departing from the Port of New York by the way of Sandy Hook or by the way of Sands Point or Execution Rocks making more than ten port calls per month, shall receive a discount of fifty percent of the charges set forth in columns 2 and 3 for each port call in excess of ten. This discount is to be calculated for each calendar month.

- Definitions:
  - “Overall Length” is the distance between the forward and after extremities of the vessel.
  - “Extreme Breadth” is the maximum breadth to the outside of the shell plating of the vessel.
  - “Depth” is the vertical distance at amidships from the top of the keel plate to the uppermost continuous deck, fore and aft, and which extends to the sides of the vessel. The continuity of a deck shall not be considered to be affected by the existence of tonnage openings, engine spaces or a step in the deck.
- All measurements shall be in feet and inches (U.S.).
- The Board of Commissioners of Pilots shall be the sole arbiter with respect to a question concerning these definitions. The decision by the Board shall be final.
- The measurements of overall length, extreme breadth, and depth, as previously defined, shall be made available to the pilot by the master or his agent for the purpose of computation of pilotage fees. Failure to provide the measurements so required shall subject the vessel to maximum pilotage charge.
